Installation Method

0/0+
Up to 83cm
0-13kg

5 Installation

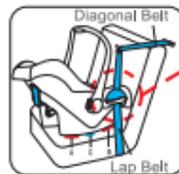

5.1 This child seat can only be used with the harness for children less than 13kg in weight (group 0+), installed rearward facing using a three-point lap and diagonal seat belt.

- Step 1. Put your child into the safety seat. Check the height of the shoulder straps are in the correct position and fasten the buckle. Then adjust the handle to the Position 3 for carrying.

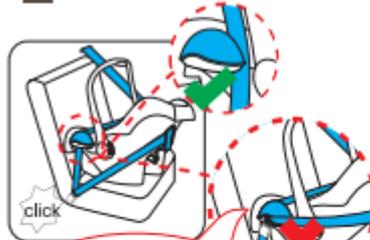

- Step 3. Thread the diagonal belt section of the safety belt through the diagonal belt guide at the back of the car seat.

- Step 2. Place the car seat on the vehicle's seat. NOTE: Please ensure the car seat is in contact with the vehicle's seat at point C - this will ensure the balance of A and B. Feed the lap belt section of the seat belt into the lap belt guide.

05/06

5 Installation

After belt feed, neither the slot of belt nor belt guide can be placed in this position, please contact the manufacturer if in doubt!

- Step 4. Feed the other side of the lap belt into the other lap belt guide and fasten the safety belt. You will hear a "click" sound. Check the seat belt is correctly fastened by pulling the seat belt upwards.

- Step 5. Adjust the handle to position 4. Ensure the seat belt is correctly routed and tighten the seat belt by pulling the diagonal belt upwards. Check that the webbing has not become twisted and also check that the cover is not impeding the movement or fit of the seat belt in any way.
